*Management Dynamics in the Knowledge Economy* (MDKE) welcomes contributions from academics and professionals all over the world to submit theoretical and empirical papers in all categories of management and economics. Authors are invited to submit studies which contribute to the theoretical development of the field, original research, revised versions of conference papers that have not been published, literature reviews, papers that bring fresh perspectives on old topics or empirical and design based research.

The journal stresses out the latest developments on the subject of management worldwide with a view to promoting sustainable development in all the scientific and practical fields. It seeks to encourage the diversity of perspectives and standpoints of academics, professors, researchers, Ph.D. holders and students, practitioners and of anyone connected to the topics of the journal.
