

Membership of the CIRIEC scientific network

The CIRIEC scientific network is composed of all scientists and experts active at national and/or international level within a CIRIEC body, and of people interested in CIRIEC's (International Centre of Research and Information on the Public, Social and Cooperative Economy) scientific activities.

Being an associate member of the CIRIEC scientific network is distinct from being member of the Aisbl within the meaning of the Statutes of CIRIEC.

Please note that when a CIRIEC national section is present in the country of the person concerned, His/her application is automatically transferred at national level and other modalities may apply. The Nomination Committee's decision and the terms of membership will be communicated promptly by e-mail.
