

IS THE SOCIAL ECONOMY A ROOM FOR THE EMPOWERMENT OF WOMEN?

INTRODUCTION

- ANDROCENTRIC
- ETHNOCENTRIC
- URBANCENTRIC
- NEOLIBERALISM
- CORRUPTION
- INDIVIDUALISM
- INEQUALITY

SPAIN EMPTIED

- DEPOPULATION
- AGING
- MASCLINIZATION

SOCIOLOGY OF ABSENCES VS. SOCIOLOGY OF EMERGENCIES

1. Redefine science as a collaborative, community Project focused on the historical, political and economic: participatory action research “ecology of knowledge”.
2. Recognize women.
3. Empowerment: as a guiding principle of the social economy?

METHODOLOGY

1. Participatory action research:
 - a. Not only unveil the empowerment of women, also participate in the process.
 - b. The research participates with FADEMUR (Federación de Mujeres Rurales) of the design of EMTE 2.0 program to share training in empowerment and entrepreneurship of women in rural areas.
2. How to measure the empowerment process of rural women?

INDIVIDUAL LEVEL EMPOWERMENT INDICATORS

- ECONOMIC RESOURCES
- HUMAN RESOURCES
- POLITICAL RESOURCES

RESULTS

1. Development of empowerment and entrepreneurship guide for women in rural areas.

2. Agreement with rural women's associations and local administrations to hold empowerment workshops.

3. Accompaniment of women in their entrepreneurship projects.
