**New perspectives in the co-production of
public policies, public services and common goods**

CIRIEC Studies Series – No. 3

CIRIEC (International Centre of Research and Information on the Public, Social and Cooperative Economy) is a non-governmental international scientific organization.

Its objectives are to undertake and promote the collection of information, scientific research, and the publication of works on economic sectors and activities oriented towards the service of the general and collective interest: action by the State and the local and regional public authorities in economic fields (economic policy, regulation); public utilities; public and mixed enterprises at the national, regional and local levels; the so-called “social economy” (not-for-profit economy, cooperatives, mutuals, and non-profit organizations); etc.

In these fields CIRIEC seeks to offer information and opportunities for mutual enrichment to practitioners and academics and to promote international reflection and action.

CIRIEC activities, publications and researches are realized with the support of the University of Liège, the Walloon-Brussels Federation, the Walloon Region and the Belgian National Lottery.

This publication has been peer-reviewed.

No part of this book may be reproduced in any form, by print, photocopy, microfilm or any other means, without prior written permission from the publisher. All rights reserved.

| <i>Philippe Bance, Marie-J. Bouchard & Dorothea Greiling</i> | |
| Presentation of the Authors | 275 |

Acknowledgements

We address our gratitude to all the contributors for the wealth of their analyses and their availability.

The book benefited from the active support of CIRIEC's International Secretariat team, for launching the program and ensuring its operational implementation, but also for the publication process. Thanks in particular to Carmela de Cicco for her important editorial work, to Lia Caponetti for her valuable support in the follow-up process, to Coline Compère for the literature and references verifications and, finally, to Prof. Roger Spear (Open University, UK), Prof. David Heald (University of Glasgow, UK) and Joy, his research-assistant, for their considerable and much appreciated work in the English editing process.

Each paper of the book was moreover subject to a double or triple evaluation, and after that to numerous interactions with contributors. Our sincere thanks also go to the anonymous referees.

Philippe Bance, Marie-J. Bouchard and Dorothea Greiling

Foreword

This book features the output of the transversal working group in public and social economy set up under the auspices of CIRIEC's International Scientific Council. It prolongs the book *Providing public goods and Commons, Towards coproduction and new forms of governance for a revival of public action* (<https://www.ciriec.uliege.be/publications/ouvrages/providing-public-goods-and-commons/>).

It is the result of a call for contributions launched in 2019 with a selection process of responses, and then to a collegial process of coordination and interactive progress of the work.

The book is the third one of the online collection *CIRIEC Studies Series*. It is in accordance with CIRIEC's vocation to develop scientific analysis on the potentialities and action of public economy and social economy organizations in the implementation of general interest.

The book combines analyses of academics and researchers, specialists of social and solidarity economy organizations and public policies. Their scientific expertise and their territorial knowledge bring a varied and detailed light to showcase profound transformations on a planetary scale which are part of a new paradigm of public action.

Philippe Bance, Marie-J. Bouchard and Dorothea Greiling

Presentation of the Authors

Georges Alakpa is Research Assistant at COACTIS, Lyon 2 University, France. He holds a Master degree in sociology of local development. He works specifically on food justice.

Philippe Bance is Professor at the University of the French Antilles (UA) and CNRS laboratory LC2S – France. He was President (2014-21) of the International Scientific Council of CIRIEC (International Centre of Research and Information on the Public, Social and Cooperative Economy), Vice-President of the Université de Rouen Normandie, France (2007-2010), Science Adviser at AERES and then Hcéres (High Council for the Evaluation of Research and Higher Education, France) (2010-2018). His main papers since 2015 concern: Social solidarity economy and public policies (*Revue d'économie régionale et urbaine*, 2021), Commons (APCE special issue, 2021), multilevel governance and contingent valuation method (*Global Encyclopedia of Public Administration and Public Policy*, 2019), *International Journal of Public Administration*, 2018, *Politics & Policy*, 2017, *Revue française d'économie*, 2016, Public enterprises and the general interest (APCE special issue, 2015). He has also edited or coedited six books, four at the Presses Universitaires de Rouen et du Havre (PURH): *Numérique, action publique et démocratie* (2021), *Éducation et intérêt général* (2018), *Quel modèle d'État stratège en France?* (2016) and *Internalisation des missions d'intérêt général par les organisations publiques* (2015); *The Routledge Handbook on State-Owned-Enterprises* (2020) and one with CIRIEC Studies Series, *Providing Public Goods and Commons* (2018).

Andrea Bassi (PhD in Sociology and Social Policy) is Associate Professor of Sociology at the University of Bologna, Italy. He teaches: "Sociology of Nonprofit Organizations", "Civil Society and Globalization" and "Research Methods for the Social Sciences".

His research interests include studies on civil society, nonprofit organizations, social enterprises in the field of social and health services, particularly concerning the relationships between public administration and nonprofit deliverers, and measurement systems of organizational performance and social impact of nonprofit organizations.

He has more than 15 years of experience as Manager of nonprofit institutions in Italy (associations, social cooperatives, voluntary organizations and foundations), both at local and national level. He has been Director of the research unit of FIVOL - Italian Foundation for Volunteers (Rome) and Director of IREF – Research Institute on Education and Training (Rome); he has also coordinated several National Research Programs.

Pierre Bauby (PhD Political Science) is Specialist on Public Action, Public Services – Services of General Interest in Europe; Chairman of Reconstruire l'action publique (RAP); Director of Observatoire de l'action publique - Fondation Jean-Jaurès; Expert on Services of general interest to the European Parliament and to the European Economic and Social Committee; Member of CIRIEC's International Scientific Commission "Public Services/Public Enterprises". Author in particular: *L'Etat-stratège du XXIe siècle*, <http://www.actionpublique.eu>, 2017; *Service public, services publics*, La Documentation Française, Paris, second ed., 2016; *L'eupéanisation des services publics*, Presses de SciencesPo, Paris, 2011; *Mapping of the Public Services in the European Union and the 27 Member States*, Brussels, 2010.

Marie-J. Bouchard is Full Professor at Université du Québec à Montréal. President of CIRIEC's Scientific Commission on Social and Cooperative Economy, she is also a member of the Center for Research on Social Innovations (CRISES) and principal scientific advisor to *Territoires innovants en économie sociale et solidaire (TIESS)*. She was external Coordinator for the UNTFSS-UNRISD project on statistics for the social and solidarity economy (2019-2021) and Chair of the Technical Working Group on Cooperative Statistics of COPAC (ICA, ILO, FAO, UNDESA, WFO) (2017-2018). She was appointed to the Co-creation Steering Group for the Canadian government Strategy on Social Finance and Social innovation (2017-2018). She was chairholder of the Canada Research Chair on Social Economy (2003-2013) and co-director-university of the Community Housing group of the Community-University Research Alliance (CURA) on Social Economy (1999-2010). Marie J. Bouchard has (co)authored many works, among which: *Conceptual Framework for the Purpose of Measurement of Cooperatives and Its Operationalization* (International Labour Office, Geneva); *The Worth of the Social Economy* and *The Weight of the Social Economy, an International Perspective* (diptych by PIE Peter Lang, Brussels); and *Innovation in the Social Economy, the Québec Experience* (University of Toronto Press, Toronto).

Angélique Chassy, PhD in Economics (University of Rouen), is Research Teacher within the EM Normandie Business School, METIS since 2019 (permanent teacher), France. Her researches concern public management, economic impact assessment, willingness to pay, multi-level governance, public good, public decision-making, cost and benefit analysis, public policy, social policies, citizen participation. The central theme of research is the junction of the public economy and the participation of civil society. Specifically, she is working on the implementation of economic evaluation and public consultation methods to develop the management of multi-level and multi-partnership public decision-making. She mainly teaches applied descriptive statistics, international marketing, internationalization, economic intelligence, project analysis and editing, incubators and business plan, multi-level governance, public management, citizen participation.

Gheorghe Ciascai is Associate Professor, Faculty of Communication Sciences, “Dimitrie Cantemir” Christian University of Bucharest, Romania. He holds a BA in Philosophy and a BA in Political Science from “Babes-Bolyai” University of Cluj-Napoca; a postgraduate joint diploma in Affairs Law from Paris I Sorbonne University and University of Bucharest and a PhD in Philosophy at “Babes-Bolyai” University of Cluj-Napoca. He is a former fellow from the European Union Institute for Security Studies of Paris and of the Research Branch of NATO Defense College of Rome. Areas of interest: international relations, European studies, security studies, international communication, philosophy of social sciences, social economy.

Hervé Defalvard (Lecturer in Economics) is a member of the Erudite Economics Laboratory (Université Paris Est) and Head of the Social and Solidarity Economy Chair at Gustave Eiffel University (Marne-la-Vallée cedex 2), France. Author of numerous books and articles, his recent research focuses on the links between the social and solidarity economy and the commons. Following the 2019 Cerisy symposium on the translocalism of the commons, he co-published his anti-actes: *Territoires solidaires en commun*, éditions de l'Atelier, 2020.

Alessandro Fabbri (PhD in History and in Sociology and Social Research) is Research Fellow and Adjunct Professor at the Department of Political and Social Sciences, University of Bologna, Italy. His research interests encompass welfare and social investment, social economy, workers buyout, the roles of the public sector and of the Third Sector in welfare systems and the relations between them, the Third Sector Organizations' social accounting practices and their social impact assessment. He devoted many years to the inter-disciplinary study of the Italian Red Cross (CRI). Currently he is member of the editorial board of the Italian journal "Social Enterprise".

Benjamin Fragny, PhD in economics, specializing in environmental economics, is a Researcher in the ESPI2R laboratory, Paris, France. His current research focuses on the social economy, collective innovation, living labs, the environment and the circular economy.

Laurent Fraisse is a sociologist and Associate Researcher at the Laboratoire Interdisciplinaire pour la Sociologie Économique (LISE/CNAM, Paris, France). He is also member of the EMES International Research Network. His main research fields are the social and solidarity economy, social enterprises, social innovation, the third sector, the governance of welfare policies and social-care services (childcare and elderly). In 2021, he co-authored "Social Enterprise in France: At the Crossroads of the Social Economy, Solidarity Economy and Social Entrepreneurship?", in Defourny J., Nyssens M., *Social Enterprise in Western Europe*, London, Routledge.

Benjamin Friedländer, PhD, is Postdoctoral Researcher and Lecturer at the Institute of Public Administration and Management at the Helmut Schmidt University/University of the Armed Forces Hamburg, Germany. His areas of research include local government, local public sector reforms and the coordination of public and third sector organizations.

Dorothea Greiling is Full Professor at the Faculty of Social Sciences, Economics and Business Administration at the Johannes Kepler University in Linz, Austria. She is Head of the Institute for Management Accounting, and an active member of CIRIEC including CIRIEC's International Scientific Council and CIRIEC's International Scientific Commission on "Public Services/Public Enterprises" since more than 20 years. Her main research focuses on accountability, performance management, sustainability control and sustainability reporting of public and non-profit organisations, as well as regulated industries. In cooperation with CIRIEC and the Austrian Section of CIRIEC Dorothea Greiling was the principal investigator of a research project (2018 till 2020) on local government strategies and approaches to reduce poverty in six European Member States (Austria, Belgium, Denmark, Germany, the Netherlands and the United Kingdom) which included social policy-approaches to combat child poverty as a common and combined action of public, social and social partners.

Alexandrine Lapoutte is Assistant Professor in Management at Lyon 2 University, France. Her research focuses on social economy organizations, including governance issues, food justice and SSE education.

Mária Murray Svidroňová is Associate Professor of Public Economy and Services at Matej Bel University in Banská Bystrica, Slovakia. Her pedagogical and research activities are focused on the economics and management of public and private nonprofit organizations and civil society. She is particularly interested in social innovation issues in the area of public service provision, e.g. through co-creation, community building and participatory budgeting. She has been active in several international studies and research projects dealing with public service innovation and civic engagement. In cooperation with the Government Office of the Plenipotentiary for the Development of Civil Society, she participated in the preparation of legislative changes in the field of financing Slovak NGOs.

Juraj Nemec is Professor of Public Finance and Public Management at the Faculty of Economics and Administration, Masaryk University in Brno, Czech Republic and part time Professor at Matej Bel University Banská Bystrica, Slovakia. He served and serves in different positions in international organisations in the public administration area (especially as Vice-President of IASIA, President of NISPAcee, Vice-President of IRSPM, member of the Committee of Experts on Public Administration at the United Nations). He published almost 500 scientific and professional articles, books and book chapters, including papers in most prestigious public administration journals.

Christina Schaefer is Professor of Public Administration and Management at the Helmut Schmidt University/University of the Armed Forces Hamburg, Germany. Her areas of research include public financial management, public decision-making and public corporate governance.

Melanie Schinnerl is a PhD Student at the Institute of Sociology as well Research Assistant at the Institute for Management Accounting at the Johannes Kepler University in Linz, Austria. She is involved in the research project on local government strategies and approaches to reduce poverty in six European States (Austria, Belgium, Denmark, Germany, the Netherlands and the United Kingdom). Her research focuses on welfare states (especially social investment), inequality, gender studies, critical social analyses as well as research in the field of childcare.

Faruk Ülgen is Director of the Bachelor Distance Learning Programs and Head of International Relations of the Faculty of Economics-University of Grenoble Alpes-France. He has authored several books on monetary theory and on coordination issues in market economies, as well as two textbooks in industrial economics and organizational approaches. He also contributed to several chapters in books on monetary economics and economic policies, and published numerous articles in academic journals. His work focuses particularly on the theories of money, financial (in)stability and regulation, on institutional and evolutionary theories and on the relationships between financial development and economic development. His latest research agenda focuses on financial regulation, systemic viability and public good/public choice economics.

Gabriela Vaceková is Associate Professor in Public Economics, AMBIS, Prague, Czech Republic. Her research focus is third sector studies and public policy. She published in, e.g., *Public Management Review*, *Waste Management*, *Utilities Policy*, *Local Government Studies*, and *VOLUNTAS: International Journal of Voluntary and Nonprofit Organizations*, among others. She conducted several national and international projects at various universities in the Czech Republic and abroad. Her outstanding research activities were awarded Dean's prize in 2015, 2016, 2017, and 2019.

Cathy Zadra-Veil is Researcher at ESPI2R in economics and management, Paris, France. Her research interests cover: public-private partnership, hybrid organizations, regulation and evaluation, public services, social and solidarity economics, innovation, living lab, real estate, collective creativity and commons. She received a PhD in economics from the University of Paris VIII in 2010, with a specialization in Public-Private Partnership in Central Europe. Now, hybrid organizations like PPP can be analyzed in different new forms like Non-Profit Organizations, new hybrid forms of collective innovation in the spirit of knowledge commons. The Living Labs, like hackerspace, coworking, coliving, are emerging with a profound transformation of the work in all organizations (public, private, small or multinational firms, NPO). She also has several mandates as deputy mayor of a town of 5.500 inhabitants, Mouroux, France.

The **CIRIEC STUDIES SERIES** proposes research results from working groups and commissions of the CIRIEC scientific network in both social and cooperative economy and public economy.

To facilitate accessibility to those research works, this electronic series is proposed in open access, on CIRIEC's website, but also as new series in RePEC.

Each study is available and downloadable as a whole document but also chapter by chapter.
