# How to ensure that Vienna remains among the most liveable cities?

... by using modern innovations as a tool to bolster the city's sustainability

© Vienna Climate Guide

# Vienna's approach

**High  
quality  
of life**

**Resource  
conservation**

**Social and  
technical  
innovations**

© Stadt Wien/Christian Fürthner

**Dense public transport in new urban districts**

**Expansion of sharing services (bikes, cars)**

**Sustainability and high-quality architecture keys  
in thermal refurbishment and new housing projects**

**District heating from green surplus electricity**

**Reusage of valuable excavated soil at construction sites**

**Vienna Repair Voucher, Vienna Repair Network and municipal second-hand-stores incentives to avoid waste**

**Improvement of recreational areas for benefit of all**

**Enlargement of water storage capacities to balance fluctuations in water consumptions, e.g. heatwaves**

**Multi-usage retention zones relieve stress on sewer system in case of heavy raining**
